The standard silencer will be used on the car

Qualifying

How will the qualifying with three session work?

The qualifying during the event will have 3 session where 3 drivers of the same team will need to set their best lap at the Circuit de Spa-Francorchamps.

Is there a specific order which driver will need to go first?

The first driver has to be an BRONZE driver, other two are free of choice. When there is NO BRONZE driver in the line-up, a SILVER driver will set the first time.

What if my team has only 2 drivers?

When a team is only driving with 2 drivers, one of the drivers will have to set two times.

How many sets of tires may I use during the Qualifying sessions?

All teams must use a new set of tire for each of the three sessions and only have the availability to refuel once before the session, refueling during or in between the qualifying sessions is not allowed.

Which time will be used to determine the grid order?

The average time of the three times set, will determine the grid for the 12H Race.

Transport

Is the EUR 4500 for shipping from each continent?

Yes the transport price is from each continent. Creventic and Share Logistics will arrange all items from the port of country of origin until the circuit of Spa and the way back to the same port.

Teams need to arrange the trucking of their container to the port, Creventic and Share Logistics will take it from there.

How can we request more information regarding the transport?

Please fill in the shipping request form below and more information will be send to you, as we receive all information via this link:
